PRODUCT	TERM	RATE	PREPAYMENT OPTIONS	COMMON USES
SOFR-indexed Adjustable Rate Advances	4 to 120 months	Adjustable rate indexed using the Secured Overnight Financing Rate (SOFR)	Prepayment is permitted in full or in part on rate reset dates with one business day notice. Fee is dependent on present value of the difference of scheduled interest payments to be paid and those to be collected.	<ul style="list-style-type: none"> Match the maturity of various financial instruments. The SOFR index provides rate resets that correlate well with other short-term indices.
SOFR-indexed Adjustable Rate Callable Advances	12 to 60 months	Adjustable rate indexed using the Secured Overnight Financing Rate (SOFR)	Prepayment in full/part without a fee at specific intervals throughout life of advance.	<ul style="list-style-type: none"> Fund adjustable-rate loans and other interest rate sensitive assets with similar maturities and repricing characteristics Reduce the potential impact of widening credit spreads on your funding cost by using advances indexed to SOFR, which is a near risk-free reference rate
Putable Advances Non-amortizing; contains options FHLBank can exercise	12 to 180 months	In exchange for selling an option (European) or a strip of options (Bermudan) to FHLBank, the advance is priced below the rate for a fixed rate advance with the same maturity.	If FHLBank exercises its put option, this advance must be prepaid in full, without a fee, on the put date. See FHLBank's <i>Member Products and Services Guide</i> for full prepayment guidelines.	<ul style="list-style-type: none"> Complements your deposits when used for overall balance sheet funding Lowers the overall cost of borrowing versus like-term bullets Provides a strong alternative to brokered deposits
